Celebrating Mosaic's Super Nurses

"I don't know why anyone would not want to be a Mosaic nurse. I really don't understand that."

That was the response from Kathryn McKinney, who has been a Mosaic nurse in Kansas for about four years, when asked, "Why be a nurse at Mosaic?"

Mosaic in Delaware

"I absolutely love what we do. I love watching people learn and grow and meet all of their goals. I can't imagine doing any other type of nursing. I love working for a place where I feel like I'm valued, and I'm heard, and we live our mission every single day." - Crystal Myers, Mosaic nurse in love

All week for #NationalNursesWeek, we're celebrating our nurses' dedication to keeping the people we serve safe and healthy. Thank you, Mosaic Super Nurses! You are appreciated!
